Jul 26, 2013

Commissioner Bob Stump  
1200 W. Washington - 2nd Floor  
Phoenix, AZ 85007

Dear Commissioner Stump,

I'm sending you this email to ask that you please not deregulate Arizona's electricity system.

Many older Arizonans are on fixed incomes. We already face ever-increasing costs of living.

With our state's hot summers, power for cooling is not optional. Keeping the cost of electricity affordable should not be put at risk with "deregulation".

Why risk the safety and pocketbooks of Arizona's families and retirees?

Please oppose this experiment of "electric deregulation".  
Thank you.

Dear Commissioner Stump,

Please DO NOT DEREGULATE Arizona's electricity system. Deregulation has proven itself time and again to be bad news for consumers. It has never brought the pricing competition or lowered costs to consumers it has promised. Cable and telephone are two good examples.

Affordable utilities should be your priority, not the pockets of utility providers. The job of the AZ Corporation Commission is to regulate. You are our protectors and advocates for affordable electricity. We are a state of retirees. What are older Arizonans to do when they live on fixed incomes? As property taxes, sales tax, food costs and everything else goes up, those who are poor, unemployed, underemployed or retired cannot face yet another rise in the costs of living.

People die from the heat in this state. Power for cooling is not a luxury. Do not risk our affordable electricity with "deregulation". Look to the other states for which deregulation IS NOT working.

Please oppose "electric deregulation". Thank you.

I'm sending you this email to ask that you please not deregulate Arizona's electricity system.

Many older Arizonans are on fixed incomes. We already face ever-increasing costs of living.

With our state's hot summers, power for cooling is not optional. Keeping the cost of electricity affordable should not be put at risk with "deregulation".

Why risk the safety and pocketbooks of Arizona's families and retirees?

Please oppose this experiment of "electric deregulation".  
Thank you.

I'm sending you this email to ask that you please not deregulate Arizona's electricity system.

Many older Arizonans are on fixed incomes. We already face ever-increasing costs of living.

With our state's hot summers, power for cooling is not optional. Keeping the cost of electricity affordable should not be put at risk with "deregulation".

Why risk the safety and pocketbooks of Arizona's families and retirees?

Please oppose this experiment of "electric deregulation".  
Thank you.

Sincerely,
